**India:**

- iafp\_30 = using afr aids and afraidp: How often have there been occasions when you were afraid of your spouse/partner/romantic (non-cohabiting) partner?

**Remark:** two questions were used, one for “spouse” and one for “partner”. We basically used “spouse” values and replaced missing cases with “partner”!

**Warning:** There are a lot of missing values and cases with no partner who answered the question.
